

# VCU Mathematics Colloquium

## *The Man Who Knew Infinity: the Movie, the Man, and the Mathematics*

**Prof George Andrews  
Penn State University**

Friday, April 28  
3:00–3:50  
2201 MCALC

In the spring of 2016, the motion picture, *The Man Who Knew Infinity*, was released. It is now available on DVD. The movie tells the life story of the Indian genius, Ramanujan. In this talk, I hope to start with the trailer from the movie. Then I shall provide some discussion of Ramanujan's life. Finally I hope to provide a glimpse of his mathematics from the celebrated *Lost Notebook*.
