1. List the degrees.

2. Find the maximum degree $\Delta$.

3. Find the minimum degree $\delta$.

4. Find the average degree $\bar{d}$.

5. Find the number of vertices of even degree $n_e$.

6. Find the number of vertices of odd degree $n_o$.

7. Find the number of vertices of maximum degree $n_\Delta$.

8. Find the number of vertices of minimum degree $n_\delta$.
