

# *Welcome to the Second Exam!*

## BNFO 301: Introduction to Bioinformatics

*The primary purpose of this exam is to serve as an educational tool.* With this in mind, you should not be surprised if some of the problems go beyond your present abilities and try to connect things that may not yet have been connected. Nonetheless, most of the elements have been drawn from the problem sets and study questions. If you ask yourself, “*Have I seen something like this before?*” the answer is almost always yes. Answer what you can and go as far as you can (and a bit further) with the rest.

### RULES OF THE GAME (*Same as before!*)

- **Available resources:** Open book, notes, web, brain. Not open people.
- **Consultations:** Sterling and I are available. I expect that a consultation will be necessary for you to make maximal progress with the exam. The following (normal) meeting times are available, with others available by request:

#### Tuesday, May 1

10:00 Denetria Wynn  
10:30 Seemab Malick  
11:00 Carlo Diaz  
11:30 Charlene Adams  
12:00 Jason Getter  
12:30 Alexander Manley  
2:00 Jobin Abraham  
2:30 Sally Fayed  
3:00 Tysheka Finney  
3:30 Elizabeth Kost  
4:00 Krysi Weathers

#### Wednesday, May 2

9:00 Karan Gupta  
9:30 Dharikkumar Patel  
10:00 Ryan Friedberg  
10:30 Billy Budd  
11:00 Carl Sutton  
11:30 Alice Bourmaud  
12:00 Jamal  
1:30 Jenifer Unruh  
2:00 Natasha Williams

Please e-mail me as to whether you wish to make use of your allotted time.

I do not have e-mail at home. However, you can call me at 285-2447, up to 10:30 PM.

- **What to submit:** Electronic copy of everything. Begin all files with your last name. Thought processes are at least as important as answers.
- **When to submit:** Everything must be submitted by the end of the day, **Friday, May 4**
