Final Exam Review Sheet (for cumulative portion)
Social Psychology

Pull out your copy of each outline (not just the PowerPoint handout) listed below and then highlight the topics listed here. Each item listed here is a heading on an outline; you should study everything that falls under a listed heading (e.g., letters A-C for Correlation: The Search for Relationships). This is the information you need to study for the cumulative portion of the Final Exam. Email me if you have a question about what to study!

Introductory Outline - Nothing

Social Psychology: The Science of the Social Side of Life
