(Grade of C or better required.)

(Grade of C or better required.)

## Mathematics & Statistics:

(fulfilled by major requirements)

## Supporting Courses

### Human, Social, and Political Behavior:

- ANTH 103 Introduction to Anthropology
- ECON 101/INTL 102 Introduction to Political Economy
- HUMS 300 Great Questions of the Social Sciences
- POLI 103 U.S. Government
- PSYC 101 Introduction to Psychology
- SCTS 200 Science in Society: Values, Ethics, and Politics
- SOCY 101 General Sociology

### Science and Technology:

- BIOL 101 Biological Concepts (3 or 4 credits)
- BIOL/ENVS 103 Environmental Science (4 credits)
- CHEM 110 Chemistry and Society
- FRSC 202 Crime and Science
- INSC 201 Energy! (Prerequisite: MATH 131, STAT 208 or higher level.)
- PHYS 103 Elementary Astronomy

### Diverse and Global Communities:

- INTL 101 Human Societies and Globalization
- MASC/INTL 151 Global Communication
- POLI/INTL 105 International Relations
- RELS 108 Human Spirituality
- WMNS 201 Introduction to Womens Studies

### Literature and Civilization:

- ENGL 215 Textual Analysis
- HIST 201 The Art of Historical Detection
- HUMS 250 Reading Film
- PHIL 201 Critical Thinking About Moral Problems
- WRLD/INTL 203 Cultural Texts and Contexts
- WRLD 230 Introduction to World Cinema

### General Education Elective:

Choose two courses from boxes 3, 4, 5, or 6 (must be from two different boxes).

### General Education Modules:

Complete each.

- Experiencing the Fine Arts: complete one course from the School of the Arts (1-3 credits).
- HUMS 202 Choices in a Consumer Society

### Foreign Language:

Must demonstrate competency through the 102 level. (Can be met by approved high school background or satisfactory placement test score.)

- 101 level
- 102 level

## Capstone Course

- Taken in major as a senior (after at least 85 credits).

- MATH 490

- □ Has VCCS Associate Degree

(Such a student needs only to meet the requirements on page 2.)
The Bachelor of Science degree awarded by the Department of Mathematics and Applied Mathematics requires a minimum of 48 credits in courses labeled MATH, OPER, STAT, or CMSC. Students may choose a concentration in Mathematics, Applied mathematics, Biomathematics or Secondary Mathematics Teacher Preparation. A fifth concentration in General Mathematical Sciences offers flexibility for students who choose not to follow any of the above concentrations. Regardless of concentration, a major must obtain credit for the nine core courses listed in the box below, as well as additional natural science courses, as indicated. Other courses needed to fulfill the requirements of individual concentrations are as follows. A grade of C or better is required in courses marked with an asterisk (*).

### Mathematics
MATH 301 Differential Equations*; MATH 501 Introduction to Abstract Algebra; one of MATH 427–429 or MATH 507 Analysis I; MATH 509 General Topology; and MATH 525 Introduction to Combinatorial Mathematics. Also, complete 6 additional upper-level credits in mathematics, statistics, operations research or computer science courses, or complete a minor or a double major.

### Applied Mathematics
MATH 301 Differential Equations*; Choose one of MATH 515 Numerical Analysis I or MATH 516 Numerical Analysis II; Choose two of MATH 532 Ordinary Differential Equations I, MATH 533 Partial Differential Equations I, MATH 534 Applied Discrete Dynamical Systems. Also complete 9 additional upper-level credits in mathematics, statistics, operations research or computer science courses (at least one of which must be at the 500-level), or 3 credits in mathematics, statistics, operations research or computer science at the 500-level and complete a minor or a double major.

### Biomathematics
MATH 301 Differential Equations*; MATH 380 Introduction to Mathematical Biology; Choose two of MATH 580 Methods of Applied Mathematics for the Life Sciences I, MATH 581 Methods of Applied Mathematics for the Life Sciences II, MATH 582 Methods of Applied Mathematics for the Life Sciences III. Complete MATH 585 Biomathematics Seminar (repeated for two credits). Also complete 6 additional upper-level credits in mathematics, statistics, operations research or computer science courses, or complete a minor or a double major.

### Secondary Mathematics Teacher Preparation
MATH 327 Mathematical Modeling; MATH 504 Algebraic Structures and Functions; MATH 505 Modern Geometry; MATH 530 History of Mathematics; MATH 554 Using Technology in the Teaching of Mathematics. Also, complete 6 additional upper-level credits in mathematics, statistics, operations research, or computer science courses, or complete a minor or a double major which could be in education.

### General Mathematical Sciences
Complete MATH 301 Differential Equations* or MATH 327 Mathematical Modeling. Also complete 15 upper-division credits in MATH, STAT or OPER, with at least 9 credits at the 400-500 level, or 9 credits in MATH, STAT or OPER at the 400-500 level and complete a minor or double major.

---

---

### NATURAL SCIENCES:

Complete one of the following sequences with lab:
- PHYS 201–201 or PHYS 207–208
- BIOL 151–152 or CHEM 101–102

Complete another course in the natural sciences. This course must be in a science different from the natural science sequence above, and cannot be from the General Education science and technology list (box 4 on page 1).

### ELECTIVES:

(Additional courses to meet the 120 credits needed to graduate.)

### Additional degree requirements

- □ At least 2.00 cumulative GPA
- □ At least 2.00 GPA in major
- □ At least 45 credits in upper level (300 or above) courses
- □ At least 120 total earned credit hours
- □ At least 30 of the last 45 credits from VCU
