

VIRGINIA COMMONWEALTH UNIVERSITY
Department of Mathematics & Applied Mathematics
MATH 656 – Advanced Graph Theory
Spring 2021

Instructor: Dr Larson

Office: 4106 Harris Hall & Zoom!

Phone: (804) 828-6820

Email Address: clarson@vcu.edu

Web page: www.people.vcu.edu/~clarson, and Blackboard for grades.

Prerequisite(s): MATH 556.

Text and Other Materials: D. West, *Introduction to Graph Theory*, 2nd ed..

Topics: Dominating sets (Sec. 3.1), algorithms (Sec. 3.2), matchings in general graphs (Sec. 3.3), network flow problems (Sec. 4.3), structure of k-chromatic graphs (Sec. 5.2), chordal graphs (Sec. 5.3), flows and cycle covers (Sec. 7.3), perfect graphs (Sec. 8.1), Ramsey theory (Sec. 8.3), random graphs (Sec. 8.5), eigenvalues of graphs (Sec. 8.6), complexity (App. B).

Learning Goal: Learn advanced graph theoretic concepts, theorems, proof techniques---and how to approach new graph theory problems.

Attendance: There is no attendance policy per se, but there will be homework and in-class assignments that are due.

Expectations:

- You are expected to attend class, complete homework, and ask questions during class or office hours.
- For Zoom classes, classroom worksheets/notes must be emailed prior to the next class.
- When presenting your work, I expect you to show all significant steps that are used to complete each problem. In cases where work is missing, you will not be given full credit.
- I encourage you to work with others on homework problems, however, any assignments to be turned in must be written up on your own. If you work with others, you must write who you worked with on your assignment.
- Please write neatly on all assignments to be graded; exceptionally messy work may not be graded.
- Only selected homework problems will be graded; other problems will be graded for completion.
- **There are no make-ups on in-class assignments.** I will drop your three lowest in-class assignments, assuming that you couldn't come to class for excusable reasons.
- Make up tests will be considered under exceptional circumstances: if you miss a test and want to be considered for a make-up, you *must* contact me immediately.

Tests and Determination of Grades:

There will be two equally weighted tests. Here is the *tentative* schedule:

Test #1, Mon., Mar. 15.

Test #2, Wed. May 5.

- The tests are closed-book and closed-notes.
- The tests will be *closely based on* the in-class assignments and assigned homework.
- Use of calculators or other computing technology is not allowed on the tests.
- Tests are written under the assumption that you are studying the material at least 6 hours per week outside of class.

Your final average will be computed as follows:

Tests:	50% (25% each)
Homework:	25%
In-class assignments:	25%

Grade Scale: The 10-point scale: 90-100 A, 80-89 B, etc.

Important Dates to Know:

- Last day to withdraw: Wed. May 5.
- Classes end: Wed. May 5.

VCU Syllabus Statement: Students should visit <http://go.vcu.edu/syllabus> and review **all** syllabus statement information. The full university syllabus statement includes information on safety, registration, the VCU Honor Code, student conduct, withdrawal and more.
