

BIOS 567
Assignment 1

Prepare and present an overview (approximately 8 minutes) for your assigned section from Lisa Seachrist Chiu's (2006) *When a Gene Makes You Smell Like a Fish: ...and Other Tales about the Genes in Your Body*. This resource is freely available by creating a user name and password through ebrary at <https://site.ebrary.com/lib/vacommonwealth/login.action>

NOTE: If you are off-campus, you may be required to connect to VCU's virtual private network, webvpn.vcu.edu to access ebrary.

For your selected topic, also read that chapter's introduction. You may also want to refer to The Genetics Primer on page 184-192 and/or chapters 1-2 of your textbook. All presentations will be given in class on Wednesday, September 5.

Topic	Starting Page	Student Assigned
